Maude Vantour is a young French designer who has been experimenting with paper and foil for many years. Her lampshade designs Diamond, Confetti and Rose for Anthologie Quartett, give a mere glimpse of her creativity. The first design, which was realized in January 2011, was the Diamond suspension lamp, seen here, where seven different shades come together giving a surreal view, similar to the facets of a diamond. See Anthologie Quartett at Black Out, Via Dell Orso 7a, Milan.
